ABOUT ME

I'm a passionate Software Developer focused on creating user-friendly software solutions. Transitioning into software development enabled me to pursue my passion for coding and problem-solving. I specialize in crafting intuitive websites and applications tailored to user needs.

SKILLS / TOOLS 🔧

•Javascript •Python •C/C++ •C# •HTML •CSS •Bootstrap   •React •Angular •Net Framework   •MsSQL •Postman •MongoDB

•Git •Github •FireBase •Azure •AWS •Docker •Vs Code

EXPERIENCE 💼

Software Developer - Intern/ Acumant, Stockholm -Remote   Oct 23 - Mar 24

Key Responsibilities:
•Develop front-end components using JavaScript, React, CSS, and HTML.
•Optimize components for maximum performance across various devices and browsers.
•Contribute to the entire application lifecycle, focusing on coding and debugging.
•Troubleshoot and debug applications.
•Collaborate with cross-functional teams to define, design, and ship new features.

•**IT Tools**: React , Javascript , HTML , CSS , Scrum , Github

Frontend Developer - Intern/ Cubicl, Ankara-Remote   Sep 22 - Aug 23

During this productive internship process, I contributed to my development by performing tasks in the following areas:

• Application Interface Design Fix
• Form Field Improvement
• Creating and Designing a New Page
• Fix bugs in the app

• This internship experience made a significant contribution to my better understanding of software development processes by providing me with the opportunity to successfully perform various tasks in real applications.

• **IT Tools:** Angular , Javascript , HTML , CSS , Scrum , Github , Git Kraken

COURSES & BOOTCAMPS 📖
